

HOUSE *of* LOBKOWICZ

Statement of Solidarity

Prague, March 2, 2022

House of Lobkowitz expresses its deepest condolences and support for families who have suffered loss of life or have been forced to flee their countries as a result of the unjust invasion of Ukraine ordered by Vladimir Putin.

As former refugees who have experienced wars, dictatorship, and a Communist authoritarian regime, we greatly empathize with the innocent victims who have been displaced by military aggression.

We remember the kindness shown to us by strangers to help rebuild our lives and come back to our homeland. We will do our utmost to support humanitarian efforts and endorse the return of the sovereign Ukrainian nation to its citizens.

Today, we are witnessing the exploitation of history, which goes against our values as a cultural institution dedicated to sharing the past and inspiring people to create a better future.
